

## ***PLEDGE***

We are the *First Team!*

We represent the future with pride.

The world is ours, and all that it holds,  
Because we will work and focus to obtain our goals.

Discovering who we are, and where we want to go,  
Requires knowledge, hard effort and determination from the soul.

The paths we travel and the roads we cross,  
The wisdom to learn, from battles won and lost.

But who decides and plans my life to be?  
It's my future, it's my journey, no one but me!

Our commitment and standards will not be of discouragement,

When we face adversity,  
It will be with confidence and courage.
